

# Rez Band, Walk Away

Every time we walk away  
We walk away from You  
No chance in a million years  
When we walk away from You  
Why do we turn to go  
Why do we walk away from You  
Every time we live that way  
We walk away from You

We don't know how to feel tonight  
We wait in single file  
We're hot, we're cold, we're in between  
Whatever trend's in style  
There's sadness in Your smile  
There's sorrow in Your smile

Every time we're lost out there  
We've walked away from You  
Every time we're lonely  
Oh, we've walked away from You
