

Rez Band, Walk Away

Every time we walk away
We walk away from You
No chance in a million years
When we walk away from You
Why do we turn to go
Why do we walk away from You
Every time we live that way
We walk away from You

We don't know how to feel tonight
We wait in single file
We're hot, we're cold, we're in between
Whatever trend's in style
There's sadness in Your smile
There's sorrow in Your smile

Every time we're lost out there
We've walked away from You
Every time we're lonely
Oh, we've walked away from You
