

# Rhapsody Of Fire, Diamond Claws

Mighty wings to overfly the pain  
Faithful friend we'll set the world on fire

Riding the sentry to face the unknown  
The titan of crystal will tame every storm  
It's hard to control such a behemoth of ice  
Fear and terror are spread  
With his bloodcurdling screams in the night

Holy sentry fly  
Over the mystical rain and beyond

Bring me the truth that was unjustly veiled  
I'm finally trusted to mount you and fly  
None can stand before your diamond wings  
You'll be feared and respected  
My Terial, lord of the fight

Holy sentry fly  
Over the mystical rain and beyond  
Holy sentry fly high  
There are no secrets for you in the sky

Across the time, to reach out the edge of the world  
Beyond the light, to reach out the secrets untold  
With the force of your diamond claws

Holy sentry fly  
Over the mystical rain and beyond  
Holy sentry fly high  
There are no secrets for you in the sky

Across the time, to reach out the edge of the world  
Beyond the light, to reach out the secrets untold  
With the force of your diamond claws
