

# Rhapsody Of Fire, Silent Dream

The silent storm in my heartbeat  
Is raging at the questions of soul  
No way back, rising darkness  
Blind angel in a night without stars

Lost in the silent dream  
Of a lonely, broken love

The fall of hope, of illusion  
Is hidden there behind the wild rocks  
To reach the sun, warm my feelings  
I'll rise where only eagles can fly

Lost in the silent dream  
Of a lonely, broken love

Fly, fly high  
Enlight my heart and my eyes  
Bring hope with your Holy sunlight  
The Angels' fire

The silent storm in my heartbeat  
Is raging at the questions of soul  
No way back, rising darkness  
Blind angel in a night without stars

Lost in the silent dream  
Of a lonely, broken love

Fly, fly high  
Enlight my heart and my eyes  
Bring hope with your Holy sunlight  
The Angels' fire

I'll believe  
In what the wind brings to me  
In pure love and great emotion  
I will believe
