

# Rhapsody, Wings Of Destiny

Day has gone  
But I'm still here with you  
My sweet rose  
My green hills, beloved sea, lakes and sky  
Beloved mother earth

Silent land  
Erase my thoughts  
I wanna lose myself in you,  
All in you  
Caress me and my soul  
while I close my eyes

Oh wings of destiny  
Through virgin skies  
To far horizons I will fly

Dear peaceful land  
Dear mother earth  
Caress my soul while I close my eyes

Oh wings of destiny  
Through virgin skies  
To far horizons I will fly

Oh wings of destiny  
Through virgin skies  
To far horizons I will fly
