

# Rhesus, You And Me

Walk away from the pain  
and lift your head up right  
You and me, baby  
We can chase away the dark

Now he's dead  
He'll never touch you again  
You and me, baby  
We will chase away the dark

It's coming on, it's coming on  
We're losing ourselves in the fight  
It's coming on, it's coming on  
You'll never forget it  
Oh, you shouldn't try to hide it  
Oh, I never meant to let it come in  
Stop messing about it  
Oh, how did we finally get here?

Walk away from the dirt  
And make yourself proud  
cause you and me, baby  
We gotta chase away the dark  
Take my hand, we'll escape  
From here to somewhere else  
You and me, baby  
We gotta chase away the dark

It's coming on, it's coming on  
We're losing ourselves in the fight  
It's coming on, it's coming on  
You'll never forget it  
Oh, you shouldn't try to hide it  
Oh, I never meant to let it come in  
Stop messing about it  
Oh, how come you never say it home?  
Stop messing about it  
Oh, I never meant to let it come in  
How come you never say it?
