

# Rhett Akins, Don't Get Me Started

Well it was January, not the fourth of July  
A snow white morning, and a clear blue sky  
We were miles from nowhere,  
But somehow another love found us  
We were laughing and looking in each others hearts  
Talkin' and touchin' (and) trying so hard  
Not to notice what was going on all around us

## CHORUS

There were fireworks flashing  
Thunder Clapping  
Big waves crashing on the shore  
There were church bells ringing, angels singing  
All gathered around heavens door  
Then we kissed and I saw the light  
I could go on about this all night  
Hey darlin' if you don't want to hear how the waters parted  
Don't get me started

Naw don't get me started I'm warning you  
Unless you've got an extra week or two  
You know darn well how I get when you get me goin'  
Naw don't get me taking 'bout us  
About the day we fell in love  
Unless your longing for a dose of strong emotion

## REPEAT CHORUS
