

Rhino Bucket, One Night Stand

Don't need no sympathy
Don't need no charity
Don't need no helping hand
All I need is a
Rock N' Roll band
Didn't light your fire baby
Didn't tell you lies
Didn't say I wanted you
But you never said goodbye
One more, one night stand
One more, one night stand
Don't see your point of view
Don't see much point in you
Don't like the games you play
All I want to do is get away

Bridge

One more, one night stand
One more, one night stand
I didn't light your fire
I didn't tell you to stay
Didn't say I wanted you
So stay the f**k away
Don't need sympathy
Don't need charity
Just one more
One night stand
One more, just give me one more
One night stand
One more, I just want one more
One night stand
Don't need sympathy
One night stand
Don't need no charity
One night stand
Just give me one more
One night stand
One more, one night stand
One more, one night stand
