

Rhodes Happy, 'til The Dawn Breaks

I'll speak to you
But don't you look into my eyes
All my flesh will burn
I'm here to warn you

Children it's your turn
Feel the night, live the night
'Til the dawn breaks
Feel the night, live the night
'Til the dawn breaks

I can't protect you
Oh be wary of the lights
For they mean you harm
Stay with thy night loves
Wallow in its charm
Be you ready for the storm
Gather your fern
I'm here to warn you
Children it's your turn

Feel the night, live the night
'Til the dawn breaks
Feel the night, live the night
'Til the dawn breaks
Oh I feel the night, I feel the night
'Til the dawn breaks
Oooh feel the night, Ohh live the night
'Til the dawn breaks
Well I can't protect you
So be ready for the storm
Gather your fern
I'm here to warn you

Children it's your turn
I'll speak to you
But my flesh will burn
Ooh, I'm here to warn you
Children it's your turn
Children it's your turn
Children it's your turn

I'm here to warn you

Children it's your turn
