

Rich Charlie, Everytime You Touch Me I Get High

And everytime you're near I can fly
High above the clouds and rain
Way above the hurt and pain
And when you're gone I fall down from the sky
But everytime you touch me I get high
I've been touched be the angels and
I've been kissed by the very best
I've been loved hard by quite a few
But after you
I forget the rest
'Cause everytime you touch me I get high
And everytime you're near me I can fly
When your fingers touch my skin
That's when I start to live again
'Cause without your love
I'd lay right down and die
Everytime you touch me I get high
