

# Rich Charlie, Why Don't We Go Somewhere And

WHY DON'T WE GO SOMEWHERE AND LOVE

I don't wanna read the paper this mornin'  
I don't wanna hear no busy city sounds  
So many things are so much important  
And they 're the only things worth thinkin' about

Why don't we go somewhere and love  
It's been a long long time  
Why don't we just go somewhere and love  
And lock the world outside

Why don't we just lay down what we're doin'  
We don't need a reason or a rhyme  
Don't take time to stop and think about  
Cause if we talk to much we just might change our minds

Why don't we go somewhere and love  
It's been a long long time  
Why don't we just go somewhere and love  
And lock the world outside

Why don't we go somewhere and love  
It's been a long long time  
Why don't we just go somewhere and love  
And lock the world outside

Why don't we go somewhere and love  
It's been a long long time  
Why don't we just go somewhere and love  
And leave it all behind
