

Rich Luzzi, Where Are You My Love?

Where are you? (Repeated)

Where are you my love?
Where are you my love?
Where are you my love?
I want to know you

Where are you my love?
Where are you my love?
Where are you my love?
I want to hold you

They say there's someone out there
Searching to meet you
The one who's gonna make you feel complete
They only comes to you
Once in a lifetime
When the time is right
You're bound to meet
Come into my life
Make me feel alive
Step into my world
I want to know you
Need that day to come
When our hearts will burn as one
Melt into your soul
Every time I hold you

Where are you my love?
Where are you my love?
Where are you my love?
I want to know you

Where are you my love?
Where are you my love?
Where are you my love?
I want to hold you

I've waited all my life
And still I seek you
I'm solely searching always
For your love
Anticipating days
Now I'll be with you
And moments when you'll burn inside my heart
Come into my life
Make me feel alive
Step into my world
I want to know you
Need that day to come
When our hearts will burn as one
Melt into your soul
Every time I hold you

Where are you my love?
Where are you my love?
Where are you my love?
I want to know you

Where are you my love?
Where are you my love?
Where are you my love?
I want to hold you

(Luzzi singing "yeah's and oh's")

Where are you my love?
Where are you my love?
Where are you my love?
Where are you my love?
Where are you?
Where are you my love?
I want to hold you

Where are you my love?
Where are you my love?
Where are you my love?
I want to know you

Where are you my love?
Where are you my love?
Where are you my love?
I want to hold you

Where are you my love?
Where are you my love?
Where are you my love?
I want to know you

Where are you my love?
Where are you my love?
Where are you my love?
I want to hold you

(Song fades out)
