

Richard Ashcroft, Get My Beat

I get my beat with you
When we see things through
And I think about you all the time

Who the winners in the game were playing
I don't even think they know
Who the losers and how much their paying
I don't even think they know

I need to hear the truth
From the soul of you
Chase the moments we can share

Who the winners in the game were playing
I don't even think they know
Who the losers and how much their paying
I don't even think they know

They got time
They got life
Take and take your time

I got to hear the sound of the morning song
As the light plays with your head
I'm blowing smoke and
I'll feel so damn fine
I know you care

Who the winners in the game were playing
I don't even think they know
Who the losers and how much their paying
I don't even think they know
