

# Richard Hawley, Time Has Made A Change

Lately I've been thinking about the chosen words you said  
Where nothing seems to spin outside the space that's in your head  
You are so dark and the space in your heart is so black  
You think you look forward but really you are looking back

Time has made a change

Darkness comes around me every time I hear your name  
You tiptoe so politely but to me it's just the same  
You are so dark and the space in your heart is so black  
You think you look forward but really you are looking back

Time has made a change

Your young and you should make light of it  
There's no time cos you could get lost in it

Time has changed

Time, time, time has made a change  
Has made a change  
Time has made a change
