

Richard Jacques, Diamond In The Sky

Another day, it's like a new beginning
And so today I know it's a new start
And all the bad times are disappearing
'Cos now I know that we'll never be apart

You're the one that makes me feel so high
<i>(Just like the diamonds in the sky)</i>
I never want to hear you say goodbye
<i>('Cos you're my diamond in the sky)</i>

Another road that we must travel
Another night for you to show me the way
And so today I'll give up dreaming
'Cos now I know that I need you everyday

You're the one that makes me feel so high
<i>(Just like the diamonds in the sky)</i>
I never want to hear you say goodbye
<i>('Cos you're my diamond in the sky)</i>

Where do all the rainbows go?
Is it to somewhere that I don't know?
Wherever it is I want to go

You're the one that makes me feel so high
<i>(Just like the diamonds in the sky)</i>
I never want to hear you say goodbye
<i>('Cos you're my diamond in the sky)</i>
