

Richard Jellinek, Spring That Never Came

VERSE 1

We were so wild and crazy like teenagers
Hunting for love we've always dreamed about
I held your hand like a precious treasure
We had a million dreams and plans for summertime

BRIDGE

Hot blood was boiling in my veins
We loved each other like insane
There is nothing more to say

CHORUS

We had to share this happy time together
We had to give love a new name
I so badly wanted to hold your hand
In the spring
That spring that never came

VERSE 2

We were so hungry for neverending love
Searching for feelings, longing for real touch
That was the hottest winter in my life
We were the one and only, time belonged to us

BRIDGE

I couldn't wait for every meet
For all your kisses wet and sweet
My heart got stuck so deep

CHORUS

We had to share this happy time together
We had to give love a new name
I so badly wanted to hold your hand
In the spring
That spring that never came
