

Richie Aufrichtig, Not A Stalker

Turn on your lights
'Cause I'm depressed and I need somewhere to go
You're not mine
And it took me a while to write this song about you
I know where you live
I'm not a stalker I just like talking to you
I can't live
If I have to live here without you forever
Forever, forever, forever

I'm locked in a cage
I feel so strange when all I want is your heart
It's funny to me
The closer we get the farther we are apart
And I'm not cool
But I'm not stupid and hey, neither are you
Haven't seen you
Around and about a day
But to me it feels like forever
Forever, forever, forever

Pictures from two years ago of you
I'm still wearing the same pair of shoes
One day I will throw them in the fire
But right now, they will inspire me
Forever, forever, forever
