

Richie Kotzen, Do It To Yourself

Rise to your feet
Sober up, it's all right
What do you see, when you wake up at midnight ?
What did you do ?
Another dream day is gone
Take another shot, (missing line)
And then you wonder why

But you do it to yourself
Or you thought you'd know better by now ?
You can't fool nobody else
Do it to yourself
Or you thought you'd learn something by now ?
You can't win when you're so out of touch
You say you wanna change (ch-ch-change) your ways but, you keep on losing yourself
Do it to yourself
Or you thought you'd learn something by now ?
You can't blame nobody else

Fall to your knees
Got your head (missing word) up, yeah
You try to find little time
I hope it don't catch you
How do you sleep down in the dirt so deep ?
Taking another shot
Why did you do it ?
Don't you wonder why ?

But you do it to yourself
Or you thought you'd know better by now ?
You can't fool nobody else
Do it to yourself
Or you thought you'd learn something by now ?
You can't win when you're so out of touch
You say you wanna change (ch-ch-change) your ways but, you keep on losing yourself
Do it to yourself b
Or you thought you'd learn something by now ?
You can't blame nobody else

Or you thought you'd learn something by now ?
