Faith...

I dont wanna lose my faith
In all of the things that I felt so strong
I may be sleeping, but I'm holding on

I feel like life has been bleeing me
I not the same as I used to be
All around me is changing
The times, the words, the faces
But I know, I cant stop believing

Living in faith
I dont wanna lose my faith
In all of the things that I felt so strong
I may be sleeping, but I'm holding on

Talking about faith
I dont wanna lose my faith
But what am I supposed to do when the feeling is gone?
The hardest thing about it, is moving on

I know somebody has got a bigger plan
I know the future is out of my hands
Im all right with waiting and anticipating
Cause wont stop believing

Living in faith
I dont wanna lose my faith
In all of the things that I felt so strong
I may be sleeping, but I'm holding on

Talking about faith
I dont wanna lose my faith
But what am I supposed to do when the feeling is gone?
The hardest part of all it is moving on

I have been here for so long.yeah, yeah
But my faith is keeping me strong.strong

Don't stop believing in faith
I dont wanna lose my faith
In all of the things that I felt so strong
I may be sleeping, but I'm holding on

Im talking about faith
I dont wanna lose my faith
But what am I supposed to do when the feeling is gone?
The hardest part of all it is moving on

Dont wanna lose my faith
I just gotta learn to love
Never gonna lose my faith
I just need to hold on.
Hold on to my faith
