

# Richie Kotzen, Made For Tonight

No more waiting for the one  
You are everything that I could not find  
No more questions in my mind  
Because you satisfy the void in my life  
Some would say I was bitter  
But the better things have come to me  
And that I can deny  
Everything everything is  
So much better tonight  
I know you and were made for tonight  
So much larger than life  
You know you and I were made for tonight  
Tell me anything you want to  
You know words could never get in our way  
Let me be the one to tell you  
All the kinds of things I could never say  
I can't show you the future  
But the better things have come to be and  
That we cant deny

Everything everything is  
So come with me ill show you how  
Forget the past forget the doubt  
You and I were, meant to be and that we can deny  
Theres no time to be bitter  
Because the better things have come to us  
And that we can deny  
Everything everything is
