

Richie Kotzen, Still

Don't try to make me what I don't wanna be
This is my life and I will do what I please
You say my fate is hopeless,
You say I have no focus

The more I suffocate the more I can see
My bedroom walls are closing on me
As my life passes before me
I know I am living but this life ain't for me

And I still forever wanna get away
And I will show you that you are wrong
And I still believe there's another way
And I will show you that you are wrong
You know that I will

You come to me with all your visions of hope
You say I let you down so leave me alone
You got your hands on my neck
My strength is more than you expect
The more I suffocate the more I am free

The more I suffocate the more I can see
My bedroom walls are closing on me
As my life passes before me
I know I am living but this life ain't for me

And I still forever wanna get away
And I will show you that you are wrong
And I still believe there's another way
And I will show you that you are wrong
You know that I will
