

Rick Nelson, Congratulations

I can tell that you're already growing tired of me
You are no part of me even strated lying to me
If you started out to break this heart inside of me
Congratulations to you dear you're doing fine
I pass you on the street you don't speak to me
You just look at me then you walk away from me
And if you started out to make a fool of me
Congratulations to you dear you're doing fine
Well you should be comanded for the sorrow you cause me
How does it feel to be the Queen of Misery
If you started out to break this heart inside of me
Congratulations to you dear you're doing fine
[guitar]
Well you should be comanded...
Congratulations to you dear you're doing fine
