

# Rick Nelson, Everytime I See You Smiling

Everytime I see you smiling I see your love's so real  
And everytime I see you smiling words can't explain the way I feel  
You made me king with the fortune and told me that I can rule the world  
It would take one thing more to make me happy that would be your love little girl  
[ piano - guitar ]  
Everytime I see you smiling...
