## Rick Nelson, I Rise I Fall

I rise I fall with each little thing you do You hurt I hurt I'm that much a part of you And when you're happy baby well I'm happy too Since I'm that much a part of you I rise I fall with each little breath you take You cry I cry cause I feel the same heartache And when you're smiling baby well I smile too Since I'm that much a part of you Your lips are my lips my heart is your heart Never let us be further than just a breath apart I rise I fall with each little thing you do You hurt I hurt I'm that much a part of you Every thing that you feel baby well I feel it too Since I'm that much a part of you Every thing that you feel baby well I feel it too Since I'm that much a part of you a part of you a part of you
