

Rick Springfield, Let It Shine

Another lesson learned
Wrapped around my soul
Another journey ends
Another story told
Innocents, forever burns
A light in the window
Until your dreams return

Let It Shine
Shine on you
Cause you got the power
To make it come true

Let It Shine
Shine on me
I need you to help me
Gotta help me believe

Now the magic's here
Like the moon and stars
Imagination comes
No matter who you are
You are free
Free to believe
In the light in the window
In the power of your dreams

Let It Shine
Shine on me
You got the power
Power to make it come true

Let It Shine
Shine on me
I need you to help me
You gotta help me believe

Let It Shine
Shine on me
Cause you got the power
To make it come true

So Let It Shine
Shine on me
Need you to help me
You gotta help me believe
In the world
