

# Rick Springfield, You Can Really Do It

You Can Really Do It if you try  
You Can Really Do It if you try  
You Can Really Do It if you try  
If you'll just let your mind take over

I, I, I believe in you, you know there's nothing you can't do  
Sun, sun, sun will shine on, shine on thru  
The moment that you realize it's true, Oh yes it is

You Can Really Do It if you try  
You Can Really Do It if you try  
You Can Really Do It if you try  
If you'll just let your mind take over

Dream, dream, dream, no time to dream away  
Cause you've got better things to do  
High, high time to get yourself together  
'Cos I know you can make it, if you try, oh yes you can

You Can Really Do It if you try  
You Can Really Do It if you try  
You Can Really Do It if you try  
If you'll just let your mind take over

High, high time to get yourself together  
'Cos I know you can make it if you try, oh yes you can

You Can Really Do It if you try  
You Can Really Do It if you try  
You Can Really Do It if you try

You Can Really Do It if you try  
You Can Really Do It if you try  
You Can Really Do It if you try  
If you'll just let your mind take over
