

# Rick Wright & Dave Harris, By Touching

By touching-they'll illuminate it-in the-box  
With the-lightbeam...  
Used to be glad, I heard her soothe your feelings  
Seemed the perfect situation  
Feeling different, Seems they're moving in  
Circumstantial complication  
Don't you need it, Don't you miss the closeness  
Don't you feel it, Something's come between us  
By surviving, revitalizing  
We'll stop the fighting  
Don't you need it, Don't you miss the closeness  
Don't you feel it, Something's come between us  
A new direction, a different understanding  
An electric education  
While the system, program-close your eyes and  
You forgot our desperation  
Don't you need it, Don't you miss the closeness  
Don't you feel it, Something's come between us  
By surviving, revitalizing  
We'll stop the fighting  
Used to be glad, I heard her soothe your feelings  
Seemed the perfect situation  
Feeling different, Seems they're moving in  
Circumstantial complication  
A new direction, a different understanding  
An electric education  
While the system, program-close your eyes and  
You forgot our desperation
