

Ricki Lee, Love Is All Around

We were always together
You knew every thought that I had
My wish was your command
Like a match made in heaven
Then we took it right back to earth
And things got out of hand

But now I look into your eyes
I feel something I can't disguise
It's like I'm meeting someone new
Makes me wanna get it with you

Suddenly I see, what you mean to me
And what we lost is found, Love is all around
And do you think of me, like I think of you
Can you hear the sound, love is all around
Love is all around

I was walking in circles
Used to know the way
but I couldn't find it anymore
i thought the world had no colours
Tried to eat, but nothing would taste

The same as before

But now I look into your eyes
I feel something I can't disguise
It's like I'm meeting someone new
Makes me wanna get it with you

Suddenly I see, what you mean to me
And what we lost is found, Love is all around
And do you think of me, like I think of you
Can you hear the sound, love is all around
Love is all around

We can have a good time, and take th bad times
Just remembe when your down
will stay beside you, your heart will guide you
Baby love is all around-Love is all around

Suddenly I see, what you mean to me
And what we lost is found, Love is all around
And do you think of me, like I think of you
Can you hear the sound, love is all around
Love is all around
