

Ricki Lee, Melody Of Life

I remember the first day I saw the sunlight on your face
First hello was so beautiful
Breathless and captivated and my soul was elevated
If this ain't heaven then I don't know what is

I wasn't looking for you baby
But you found your way to me baby
And it feels so right
All the pieces fit together
Of you and me together till the end of time

It's just like a river, we flow together
Twisting and turning, through the valley of love
It's just like the music, it goes on forever
The words fit together with the melody of life

The seetest kiss you first gave me
I my heart just racing
First embrace was so magical
Your smile left me speechless
Damn your love was contagious

If this aint heaven then I don't know what it is

I wasn't looking for you baby
But you found your way to me baby
And it feels so right
All the pieces fit together
Of you and me together till the end of time

It's just like a river, we flow together
Twisting and turning, through the valley of love
It's just like the music, it goes on forever
The words fit together with the melody of life

I feel like I can touch the sky (thats how I feel when I'm with you)
Cos your love takes me so high

It's just like a river, we flow together
Twisting and turning, through the valley of love
It's just like the music, it goes on forever
The words fit together with the melody of life
