Do you want to get on up with me

Startin' to see the club throughin'

Smokin' out your right checks

Everybody always wanna hit me with some nonsense
People come to see me rap it aint hard core
I stay smooth relax it ain't good
I never played you girl I try to stay true
Got my blood pressure riseing
Try to hypmotize ya girls dont be shy now
Common give your theighs up let me touch your back to I'm a good messenger
Give it to you all night
Feelin' alright
Gettin' freaky
Boys down we on the seat then

Chorus:

You gotta get up what you wanna do
You gotta get up lets start to move
You gotta get up get into the mood

Should I lay her like the o zone
Or just relax that my boys home
Bring it to the back cause theres more ice in it
Bring it to the club cause theres more life in it
It damn sounds cool but i'm all nice in it
Want a shiney gold ride having no price limmit

Eh yo the bombs back
Can you see me through your contacts
Its all that you fall back
When I'm on track
All the ladies in the house say yeah!
My flow is tight when I hold the mic
All these state players tryin' to make paper

Tryin to make name crick all remain date less
Now I gotta a girl with a face lift
Chest enhanced breast implants
You outta see her naked
Go from the bed to the carpet
Do it to you often on the top floor of your apartment
You keep the oh's up
I'll keep the flows ruff
You really wanna front on me then so what

Chorus:

You gotta get up what you wanna do
You gotta get up lets start to move
You gotta get up get into the mood

You gotta get up what you wanna do
You gotta get up lets start to move

You gotta get up to get down with you
