

Ricky Martin, Save The Dance

I met you on a side, an accidental hi
And I missed you, before I met you
Your lips I want to taste, it's not the time and place
And it can't be, I'm sorry
It's like we've talked a thousand times
And made love with our eyes

[Chorus]
But tonight is not the night
I'm with somebody else and I can't lie
With me and you, it's never goodbye
Save the dance for another life
I'm guilty in my mind, cause I can't close my eyes
My spirit, can hear it
So let the music play, the changes I can't make
To heal you, conceal you
It's like we've walked a thousand miles
To make love with our eyes

[Repeat Chorus]

Without you...
Wish that I could tell you that tomorrow is all about you
But it's time to meet you in another life

[Repeat Chorus x2]

Save the dance for another life [Repeat x3]
