

# Ricky Nelson, Don't Breathe A Word

Please don't go tellin' her that I love her  
I just don't want her to discover  
I know she'd only think it's all too absurd  
It's a secret, don't breathe a word

If only she knew what I've been wishin'  
I'd be in a very bad position  
I'd have the saddest tale of woe ever heard  
It's a secret, don't breathe a word

I've been tryin' to figure out a new technique  
My new plan is a smooth plan  
But my technique is a little bit weak

As long as she doesn't suspect a thing  
She'll be receptive when I spring  
My big secret, don't breathe a word

About love, about love  
About love, about love  
About love
