Ricky Nelson, Hello Mister Happiness

Hello mister happiness, goodbye misery I've got a pretty girl to walk along with me Hello mister happiness, what was your delay I nearly gave up hopin' love would come my way

Hello mister happiness, goodbye lonely room I'll let all the sunshine in, and shut out all the gloom Hello mister happiness, my baby loves me too And my baby and I are gonna go steady with you

I wonder where you've been so long I've searched everywhere But when my baby smiled You were standing there

Well hello mister happiness, goodbye loneliness Now that you're here with me, you're my best friend I guess Hello mister happiness, tell me it's okay And you'll be my best man on my wedding day

I wonder where you've been so long And I've searched everywhere But when my baby smiled You were standing there

Well hello mister happiness, goodbye loneliness Now that you're here with me, you're my best friend I guess Hello mister happiness, tell me it's okay And you'll be my best man on my wedding day
