

# Ricky Nelson, It's Another Day

Everytime I see your face in the midnight  
I remind myself i'm just a fool  
Just a fool for ever thinkin' we could go on forever  
At least we've lived a life or two

Another day goes by and I fall into silence  
It was just a dream away  
And all the thoughts we shared and the worlds we left behind us  
Have more meaning anyway

But it's another day  
It's another time  
You're so far away  
And I'm so hard to find  
It's a long way home  
It's a long way to freedom on your own

I remember we were so much older then  
The more you learn, the less you know  
That I've always known  
That a friend is just a friend  
So now your freedom's all your own

But it's another day  
It's another time  
You're so far away  
And I'm so hard to find  
It's a long way home  
It's a long way to freedom on your own
