

# Ricky Nelson, Mad Mad World

Everybody's runnin' in a mad, mad world  
But nobody's goin' nowhere  
Everybody's gotta have more than the others  
Gotta have more than their share

Ever since the devil tempted woman with an apple  
We've all had a burden to bare  
Now the world keeps turnin' and things are gettin' faster  
Nobody's goin' nowhere

They say the grass is greener on the other side  
When they cross over they find  
Everybody's searchin' like you and me  
Tryin' to find peace of mind

See that little boy fishin' on the river  
If I could just be like him  
I'd close my eyes and let the mad world go by  
If only I could be like him

See that little boy fishin' on the river  
If I could just be like him  
I'd close my eyes and let the mad world go by  
If only I could be like him  
I'd close my eyes and let the mad world go by  
If only I could be like him
