

# Ricky Nelson, Restless Kid

I came in like a restless wind  
On a wagon train  
But I'm gonna go like a July snow  
Back to where I came from  
Gonna leave this hum drum  
It's too slow and tame

None of your business where I've been  
Don't ask me what I've done  
Run your ranch and punch your cows  
And stay behind my gun man  
Colorado's right hand will put you on the run

I got a gal in Denver town  
That's crying over me  
But I said goodbye and I let her cry  
I miss her company  
But I'll get out of this rut  
Rio Bravo's killin' me

They got a man locked in a cell  
That's a free'r man than I  
He's gonna laugh right in their face  
When they lead him out to die  
And he's gonna leave this badland  
And ride off in the sky

You're gonna see ol' Colorado  
Headin' for the door  
You better believe I'm gonna leave  
Like the 904 train  
Gotta breathe some air again  
That ain't been breathed before
