

# Ricky Nelson, Your True Love

True love (your love)  
True love (your love)  
True love baby that's what you give me  
True love (your love)  
True love (your love)  
True love baby that's what you give me

Well God made the world and he made it round  
I got my baby and I'm glad I found  
Her love was meant for me  
And my baby she'll always be

She gives me true love (your love)  
True love (your love)  
True love baby that's what you give me

True love (your love)  
Aw, true love (your love)  
True love baby that's what you give me

Well the big and little, young and old  
They all need somethin' to have and hold  
When I found you I found out  
You gave me loving I can't forget  
You give me true love (your love)  
Aw, true love (your love)  
True love baby that's what you give me  
Oh yeah, true love baby that's what you give me
