

# Ricky Skaggs, A Simple Life

I live a simple life  
I work all day I sleep all night  
A couple kids that need a nap  
Big dog and a little cat  
Wife that barks but rarely bites  
So I live the simple life.

I live a simple life  
A good coat when the cold winds bite  
Leather boots for my bare feet  
Now and then a steak to eat  
I pick with the boys on Friday night  
So I live a simple life.

Chorus:  
My favorite book was wrote about  
A man that died to save my soul  
And my favorite thing to hear is  
Daddy, I'm so glad you home  
And my favorite woman is 5'3'  
With long black hair and green eyes  
Still I live a simple life.

--- Instrumental ---

I live a simple life  
Couple of friends I really like  
A little house outside of town  
An old car that gets me around  
Complications may arise  
But I live a simple life.

And I live a simple life  
Cell phone when my old car dies  
The Internet to show me where  
GPS to get me there  
Everywhere there's satellites  
Oh, I live a simple life.

Chorus:  
My favorite book was wrote about  
A man that died to save my soul  
And my favorite thing to hear is  
Daddy, I'm so glad you home  
And my favorite woman is 5'3'  
With long black hair and green eyes  
Still I live a simple life...
