

Ricky Skaggs, Rendevous

(P. Rowan)

When you're feelin' lonely & you need a friend
Someone who don't care where you've been
Meet me, baby, at the rendezvous
Like we did when our love was new
Nobody knows just me & you
Didn't I tell you? Don't it show?
I said "I love you" a long time ago
Then you went & broke my heart in two
I don't care what people say, now
True love will find it's way
Darlin', I'll never make you blue.

At the rendezvous.

--- Instrumental ---

Meet me, baby, at the rendezvous
You'll know me, I'll know you
Kissin' in the shadows just like we've done
Two hearts a-poundin' like a big bass drum
You thrillin' me with your love so true
Didn't I tell you? Don't it show?
I said "I love you" a long time ago
Then you went & broke my heart in two
I don't care what people say, now
True loves will find their way
Darlin', I'll never make you blue.
At the rendezvous.

At the rendezvous.

At the rendezvous.

At the rendezvous.

At the rendezvous.

Meet me, baby, at the rendezvous...
