

# Ricky Van Shelton, Been There Done That

I was finally getting over all the damage you had done  
When you show up with some buttercups saying how you doing hon  
Now you know the way you done me now you know the way it was  
How can you waltz in like a long lost friend ain't you broke my heart enough  
Well I've been there done that already been your door mat  
Baby that ain't where I'm at no more  
Now you say you see that you're still in love with me  
Now you're blue to bad cause I've been there done that  
( fiddle )  
Now baby if there is one thing that I've learned in this old life  
Every boy makes a few mistakes but a fool just makes them twice  
So you can save up all your sweet talk for the next one down the line  
And the next time you start to break a heart well it damn sure won't be mine  
Cause I've been there done that...  
( fiddle )  
Now you say you see that you're still in love with me  
Now you're blue to bad cause I've been there done that  
You're blue to bad cause I've been there done that
