

Ride, Moonlight Medicine

It's just a state of mind
Freedom and time
Has got me frozen up inside
I wanna recognise
Under this moonlight
That God is on my side

With senses running wild
We touched the sky
It looks like Heaven in my eyes
Moonlight medicine Keeps me alive
Don't let your senses be denied

Won't you shine
Some light in my mind
The more I find
The more I need your medicine in my life
