

# Ride the Sky, Make The Spirit Burn

[Limited Edition bonus track]

Come to see eternity

See the light within the dark

Hear evil, see evil

I am your dark shadow

I'm your mirror though distorted, shattered sevenfold

[Chorus]

You can't control the fire

I can make your spirit burn

Come, embrace your deepest fears

Find divinity with me, seal your destiny

Go beyond insanity

[Chorus]

You can't control the fire

I can make your Spirit Burn

We can controll the fire

We can reach the spirit world
