

Right Said Fred, I Know What Love Is

There ain't a right way to do a wrong thing
There ain't a bad tune the angels sing
Coz I know what you are like

There ain't a short cut to a long love affair
You know that three hearts don't make a pair
Coz I know your ace is high

I know what love is what love is what love is
And I know what love is like

There ain't a quick fix to a slow heartbreak
There ain't a good feeling in a bad mistake
But I know when it feels right

I know what love is what love is what love is
And I know what love is like

Love is like a bed I make it every day
Love is like a breeze it blows you away
I know what love is like

There ain't a small thought in a big bouquet
There ain't another kiss like that first date
Coz I know that you just might

I know what love is what love is what love is
And I know what love is like

Love is like a bed I make it every day
Love is like a breeze that blows you away
Love is like a wish and love is like a song
Love is like a thought that spins you along
I know what love is like

There ain't another song like Avalon
When the lights are off to turn you on
I know what love is like

I know what love is what love is what love is
And I know what love is like

Love is like a bed I make it every day
Love is like a breeze that blows you away
Love is like a wish and love is like a song
Love is like a thought that spins you along
I know what love is like

I know what love is like
I know what love is like
And I know what love is like
