

Rihanna, Nobody's Business (ft. Chris Brown)

Me and you, get it?
Ain't nobody's business
Said it, it ain't nobody's business

Your love is perfection,
Please point me in the right direction
I wanna give you all my affection
Every touch becomes infectious
Let's make out in this Lexus
There's no other love just like this
A life with you I want,
then can we become lust persona

You'll always be the one that I wanna come on to
Boy, let me love you and show you how's spice show you off!
I wanna be your baby, you'll always be my baby
Tell me what you want now

I sing it to the world
Baby give me something
I wanna be your girl
I wanna make you mine
And it ain't nobody's business
It ain't nobody's business
It ain't nobody's business
It ain't nobody's business
Just mine, and my baby
Oh, oh, oh, oh

Your love is perfection,
please point me in the right direction
I wanna give you all my affection
Every touch becomes infectious
Let's make out in this Lexus
There's no other love just like this
A life with you I want, then can we become lust persona
