

# Rihanna, Push Up On Me

&lt;We break, break  
We break, break  
We break, break  
We break 'em down

We break, break  
We break, break  
We break, break  
We break 'em down

It's getting later baby, and I'm getting curious  
Nobody's looking at us, I feel delirious  
'Cause the beat penetrates my body  
Shaking inside my bones  
And you pushin all my buttons, taking me outta my zone, yeah

The way that you stare, starts a fire in me  
Come up to my room you, sexy little thing  
And let's play a game, I won't be a tease  
I'll show you the boom, my sexy little thing

(chorus:) (2x)  
I wish you would push up on it  
I wish you would push up on it  
I wish you would light me up and say you want me push up on me

I know many guys just like ya, extremely confident  
Got so much flavour with you but you the perfect man  
You wanna make me chase ya like it's a compliment  
But let's get right down to it  
I can be the girl that'll break you down

The way that you stare, starts a fire in me  
Come up to my room, you sexy little thing  
And let's play a game, I won't be a tease  
I'll show you the boom, my sexy little thing

(chorus:) (2x)  
I wish you would push up on it  
I wish you would push up on it  
I wish you would light me up and say you want me push up on me

We break, break  
We break, break  
We break, break  
We break 'em down

We break, break  
We break, break  
We break, break  
We break 'em down

I wanna see how you move it  
Show me, show me how you do it  
You really got me on it, I must confess (I must confess)  
Baby there ain't nothing to it  
Baby who you think you're fooling  
You wanna come and get me outta my dress, oh...

The way that you stare, starts a fire in me  
Come up to my room, you sexy little thing (Sexy little thing)  
And let's play a game, I won't be a tease (Oh baby)  
I'll show you the boom, my sexy little thing

(chorus:) (2x)

I wish you would push up on it (I wish you would)

I wish you would push up on it (I wish you would)

I wish you would light me up and you say you want me push up on me

We break, break

We break, break

We break, break

We break 'em down

We break, break

We break, break

We break, break

We break 'em down>
