

# Rilo Kiley, Gravity

Then they came along in their giant truck  
And they knocked you, they knocked you down  
You shoulda seen yourself lyin' there all broken  
Woah, gravity it got you good

I walked away pretendin' not to know you  
And I hoped that you were still out cold  
And I thought of the time you said I was your favorite  
And that I looked like just like a holiday

Woah, gravity-hee  
Oh, gravity-hee  
Oh, gravity-hee  
Oh, gravity-hee

I was younger then, barely in high school  
When you found me, you took me in  
And then one day, you put me on the highway  
You said that gravity was gonna do me in

Woah, gravity-hee  
Oh, gravity-hee  
Oh, gravity-hee  
Oh, gravity-hee  
Oh, gravity-hee  
Oh, gravity-hee
