

Ringo Starr, Down And Out

Looked at the sky, what did I see?
I saw someone looking at me
And I'm down and out, down and out
Well, I'm down, so down, down and out

Looked in the fire, what did I see?
I saw someone looking at me
And I'm down and out, down and out
Well, I'm down, so down, down and out

Alright, Gary!

Looked in the fridge, what did I see?
I saw someone looking at me
And I'm down and out, down and out
Well, I'm down, so down, yeah, down and out

Looked at the sky, what did I see?
I saw someone looking at me
And I'm down and out, down and out
Well, I'm down, so down, down and out

Looked in the fire, what did I see?
I saw someone looking at me
And I'm down and out, down and out
Well, I'm down, so down, down and out
Well, I'm down, so down, down and out
