

Ringo Starr, Think About You

When I'm walking down the streets and I feel it start to rain
I don't run for cover, I look up again and it's blue-
I just have to think about you!!

When the road is getting rocky, all the seas getting rock
No matter what the trouble, it isn't very tough to get through
Through-
I just have to think about you!!

Like the rain or sunshine breaking through the stormy weather
Every time my heart beats I remember that you're mine
Then I'm fine
When the world feels fast and my life feels slow
When I'm feeling way down, suddenly I know what to do-
I just have to think about you!!
I'm thinking!

Like the rain or sunshine breaking through the stormy weather
Breaking through
Every time my heart beats I remember that you're mine
Then I'm fine, so fine

I believe in magic and I do believe in love
So without going to cast a spell
There's a little trick that I do-
I just have to think about you!!

Yeah it's true
Shoo-
I just have to think about you!!
Think about you!

So I do
Do-
I'm always going to think about
You!
I think about you!

Always going to think about, think about
Always going to think about
Always going to think about you!
Always going to think about, think about
Always going to think about, think about you!
