

# Riot, You're All I Need Tonight

Somewhere she's waving at me  
At the corner of the bar  
But I find the distance too far  
To have me get up and see  
Could it be due to my smile  
Maybe i'll just hang out awhile

(Chorus)  
You're all I need tonight  
Come on save it for tonight  
You're all I need tonight

What you saying ?  
Is the music up to high ?  
Why don't you come come a little closer ?  
Put my finger on your surprise  
Your someone's ordinary dream  
Just a dish of pure delight  
Now if I can't hold my ground  
Have someone bring my car around

(Chorus)  
You're all I need tonight  
Come on save it for tonight  
You're all I need tonight

(Chorus)  
You're all I need tonight  
Come on save it for tonight  
You're all I need tonight
