Riot, You're All I Need Tonight

Somewhere she's waving at me At the corner of the bar But I find the distance too far To have me get up and see Could it be due to my smile Maybe i'll just hang out awhile

(Chorus) You're all I need tonight Come on save it for tonight You're all I need tonight

What you saying?
Is the music up to high?
Why don't you come come a little closer?
Put my finger on your surprise
Your someone's ordinary dream
Just a dish of pure delight
Now if I can't hold my ground
Have someone bring my car around

(Chorus) You're all I need tonight Come on save it for tonight You're all I need tonight

(Chorus) You're all I need tonight Come on save it for tonight You're all I need tonight
